Problem Definiton

The main goal of the project is to provide the necessary tools to find and help animals in need. The project enables people to find these animals, makes it easier to help them and connects them with organizations and individuals who can provide the animals with the help they need. One of the key benefits of the project is that it allows people to take action to help animals in their local area.

Objectives

The project also aims to provide a wealth of information about animals. In this context, volunteering opportunities are available through detailed profiles of animals related to breed, age characteristics. Users can consult this information to find animals in their area that they will have access to or to get more information about specific animals.

.10

Map

The addresses entered by the users may appear marked on the map.

.12

Benefits

Increased awareness: The app can increase awareness of animals and the needs of stray animals and lead to increased efforts to help and support them.

Benefits

One of the possible reasons for choosing this project is my personal interest in animal welfare and my desire to make a positive impact on the lives of animals. This project could provide an opportunity to raise awareness about animals and help facilitate the rescue and care of these animals.

Benefits

Another reason for choosing such a project is that I realized that there is a need for a tool to help solve the problem of stray animals. This project can help meet this need by providing information about the locations and needs of street animals and facilitating communication and coordination between individuals and organizations working to help these animals.

.15

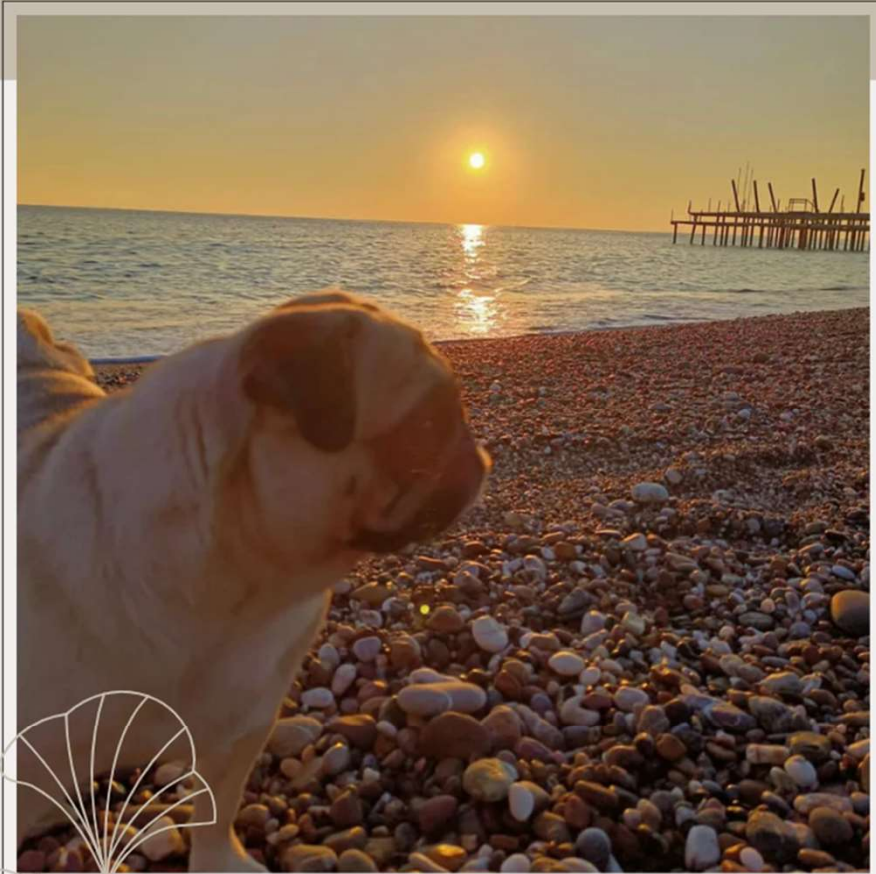

Conclusion

Providing a centralized resource to find and help stray animals. By creating a platform that allows users to report and find stray animals, the project aims to make it easier for people to find stray animals. Helping these animals and connecting them with organizations and people who can help them provide the help they need.

.16

Connecting animal lovers and organizations working with street animals. The project is a network of animal lovers and organizations that can work together to help animals. By facilitating communication and collaboration between these groups, the project aims to make it easier for people to get involved and make a difference to street animals.

Thank you
